

SPIDER-MAN Worksheet

1. What psycho-social stage is Peter Parker in? Why would you say that? Based on his age or how he acts?
2. List the 5 theories of motivation we have covered. Which theory best explains why Peter Parker does what he does?
3. In one paragraph, use 3 vocabulary terms from the neurons unit to explain Spiderman's reflexes.
4. In three sentences, show that you can connect concepts of our research unit with ideas in the movie.
5. Using vocabulary words from the memory unit, explore the concept of Peter's memory of his parents.
6. In three different paragraphs pick three symptoms of mental illness in the movie and describe them according to what you know of the DSM 5
